Gentle Yoga (hatha)
Relaxation Yoga (restorative)
Chair Yoga (self-massage)
Modified Primary (vinyasa/flow style)

Be mentored by experienced yoga teachers and friends in the circle on how to build a small business for yourself!

March - September 2019

cost = \$100 deposit (covers all books) + \$925 that you will raise during the course by first beginning donation-based classes with friends/family

300-hour Advanced Yoga Teacher Training

This 300-hour Yoga Alliance opportunity is for anyone wanting to study the depths of yoga practice, both in terms of sequencing movement/meditation and the philosophical roots of yoga. Prerequisite is a 200-hour yoga certificate, or you can take this 300-hour class at the same time as VITALITY's 200-hour class. Study the writings of Krishnamacharya ("the father of modern yoga"), Patanjali's *Yoga Sutras*, *Bhagavad Gita*, *Hatha Yoga Pradipika*, and 20th century somatic pioneers Moshe Feldenkrais & Ruthy Alon, whose strategies resemble in some important ways the later-years teachings of Krishnamacharya. Participants will also have the opportunity to complete basic certification in Movement Intelligence / Bones for Life as part of the training.

March - September 2019

cost = \$200 deposit (covers all books/materials) + \$2000 that you will raise during the course at 1-2 weekly classes you begin around the city

200-hour Yoga Teacher Training

The power of yoga in one's life . . .

One of our Yoga/Healing Touch Interns, Crystal, taught a weekly class at Literacy Center West in Price Hill last Spring. The class included people 18 - 24 years of age who were coming to Literacy Center West every week to complete their GED. The yoga class was offered as a stress-buster between their daytime working hours and their evening studying hours.

In walked a young man, his clothes smeared with tar from the day's work. He had been coming regularly to Crystal's class. He stepped onto his yoga mat and followed along with Crystal's instructions and even helped some of the newer students in the class. Near the end of the class, Crystal invited everyone to relax on their backs in reclining meditation. The young man soon was snoring, everyone giggled at him and he just continued sleeping. When Crystal invited everyone to sit up at the end of class, the young man's friends teased him about his snoring. And what he said shocked all of us. He said, ***"This yoga stuff . . . it's way better than heroin!"***

And that's the kind of work our Yoga/Healing Touch Interns do. While moving and breathing and resting and reflecting offer amazing benefits alone and substantially grow the health of our city's residents, our interns share a vision for new possibilities for the lives of every single person who comes to a yoga class.
